

Medications?

Will your child be taking medications while at Camp Rotary? This year we have again partnered with Andrew's Pharmacy to ensure that we have your child's medications at camp and packaged in a way to make sure that the proper dosage is administered at the proper time.

Andrews Pharmacy is an independent pharmacy that has been servicing communities for over 50 years. We provide specialized medication packaging (camp-pack) to assist campers with their medications. This pack includes all of the camper's medications separated by day and time. The meds are sealed into the package and distributed to the camp. Our multi-dose packaging ensures that each camper receives the right medication at the right time. The packaging makes medication administration fast and above all safe. In addition, Camp-pack is portable which allows for easy transport on field trips.

- If your child will be taking medications while at camp, you **MUST** participate in this service.
- Andrews accepts all major insurance plans,.
- Co-pays are the same, however there is an additional fee for the camp-pack service of \$20 for camp packs of 30 days or less and \$30 for camp packs of 31—60 days of medication.
- You Must register with Andrews by going to their website at www.andrewspharmacy.com and then clicking on the picture for “camps”.
- Please register your camper BEFORE June 1. There is a LATE FEE of \$50 for all accounts set up AFTER June 1.
- Andrews can even print a photo of your child on the back of each dose for an added layer of security (Parent can email a photo of the camper and Andrews will print it on the med packs!
- Don't wait! You can complete the form online with a credit card.
