

Andrews Pharmacy

Camp-Pack

Dear Physician,

The camp that your patient is attending this summer has elected to use Andrews Pharmacy to pre-package all of their medications. The meds are prepared in a package that separates the pills by day and time. The medications will be prepackaged and sent in a 30 day supply.

Parents must mail original prescriptions for the child's entire stay at camp. In order to prepare the medications in a timely manner, Andrews must receive the prescriptions 30 days prior to the camper's start date.

If the prescription is for a schedule II medication the following guidelines must be followed.

1. Write one prescription for each 30 days supply.
2. If there is a second 30 day supply, please indicate the earliest date the pharmacy can fill the prescription.

Please include DEA numbers and NPI numbers on all prescriptions.

If you have any questions please contact Andrews Pharmacy at 781-235-1001.

Thank You
